

Romanian Visual Survey 2010

The third edition of Romanian Visual Survey gathers the work of over 40 Romanian visual artists.

Although it is representative of the Romanian visual universe, the selection is not exhaustive.

About încotro

încotro sets out to be a benchmark, a launch pad, a source of dialogue and an interface between the Romanian and the international visual universes.

Romanian Visual Survey is an initiative which sets out to gather some of the best visual works produced in Romania and by Romanian visual artists in general. The Survey, which was started in 2008, is carried out yearly.

încotro is a curation project by Tudor Prisăcariu.

NB: încotro is best translated into English as where to or whither.
